

# WHOLE SYSTEM IS BENEFITTED BY TANLAC

Thousands of frail, nervous people and convalescents everywhere have testified to the remarkable power of Tanlac in bringing back their health, strength, and working efficiency. It seems to quickly invigorate the constitution and is a powerful tonic of weakness.

Mr. I. A. Russell, of 218 E. 39th St., Portland, Oregon, says:

"I was in a terribly weakened run-down condition, and ate little more than enough to keep me alive. I had a tired worn out feeling all the time, and could scarcely hold up under the least little exertion.

"Tanlac proved astonishing in my case. I am feeling altogether like a different person."

There is not a single portion of the body that is not benefited by the helpful action of Tanlac. It enables the stomach to turn the food into healthy blood, bone and muscle, purifies the system and helps you back to normal weight. Get a bottle today at any good druggist. —Adv.

## DEATH RATE FROM TUBERCULOSIS REACHES NEW LOW LEVEL

NEW YORK, Sept. 25.—The death rate from all forms of tuberculosis, in the year 1921, reached the remarkably low level of 50.7 per 100,000 population. This information has been obtained by the National Tuberculosis Association from the registrars of 45 states in the union.

In 1921, returns from 49 states showed a death rate of 105 per 100,000. The decline in 1921 is equivalent, according to the association, to a saving of about 18,000 lives in 1921 over 1920.

The association points out further that since it began its active program in 1925, the tuberculosis death rate has been cut from slightly over 200 to a figure well below 100 per 100,000 population.
